

Random Numbers multiplied by 2. Remember, calculators and computers often use this symbol * to mean multiplication. The written symbol is X.

```
say pick random 1 to 10 * 2
```

CLICK and record each number the sprite says.

Record 30 clicks.

Ring the highest and lowest numbers?

Are these **two numbers**, the lowest and highest you would have expected?

If **not**, continue clicking until you get the lowest and highest numbers you would expect to find.

Write a list:

1	2	3	4	5	6	7	8	9	10

Write the numbers in order beginning with the smallest.

Random Numbers multiplied by 3

```
say pick random 1 to 10 * 3
```

CLICK and record each number the sprite says.

Record 30 clicks.

Ring the highest and lowest numbers?

Are these **two numbers**, the lowest and highest you would have expected?

If **not**, continue clicking until you get the lowest and highest numbers you would expect to find.

Write a list:

1	2	3	4	5	6	7	8	9	10

Write the numbers in order beginning with the smallest.
