

Random Numbers and the *plus* operator

Code the frog

think Hmm... for 2 secs

INPUT in the second window 2

MAKE THE COMBO

1 pick random 1 to 10 + 3

The RANDOM number plus 3 equals 8.

8

WHAT'S THE RANDOM NUMBER ?

3 think pick random 1 to 10 + 3 for 2 secs

CLICK

Write the random number and the highest and lowest possible answer the sprite could give.

A think pick random 1 to 10 + 2

8

random number

highest possible answer

lowest possible answer

B think pick random 1 to 10 + 7

10

random number

highest possible

lowest possible

C think pick random 1 to 10 + 8

17

random number

highest possible

lowest possible

D think pick random 1 to 10 + 6

13

random number

highest possible

lowest possible

E think pick random 10 to 20 + 9

22

random number

highest possible

lowest possible

F think pick random 10 to 20 + 8

25

random number

highest possible

lowest possible

G think pick random 10 to 20 + 10

26

random number

highest possible

lowest possible

H think pick random 10 to 20 + 6

21

random number

highest possible

lowest possible
