

What does the cat say? Click and find out.

1 MAKE THE COMBO

2 CLICK

Write what the cat says here.

Here are lots more exercises. Go figure out how *mod* 10 works on the the number in the first window. Make each combo, then click and find out the result.

- | | |
|--|--|
| A say 53 mod 10 = <input type="text"/> | B say 82 mod 10 = <input type="text"/> |
| C say 41 mod 10 = <input type="text"/> | D say 85 mod 10 = <input type="text"/> |
| E say 29 mod 10 = <input type="text"/> | F say 97 mod 10 = <input type="text"/> |
| G say 64 mod 10 = <input type="text"/> | H say 56 mod 10 = <input type="text"/> |
| I say 70 mod 10 = <input type="text"/> | J say 38 mod 10 = <input type="text"/> |

What will the cat say when you click this block?

1 MAKE THE COMBO

2 INPUT a number in the second window

3 CLICK

Write what the cat says here.

Here's another example: As 53 mod 10 is 3 ... then 53 mod 10 + 4 is 7.

- | | |
|---|---|
| K 36 mod 10 + 2 = <input type="text"/> | L 25 mod 10 + 3 = <input type="text"/> |
| M 47 mod 10 + 1 = <input type="text"/> | N 82 mod 10 + 6 = <input type="text"/> |
